INTERIOR LIGHTING/OUTDOOR LIGHTING
LUMINARIAS DE INTERIOR/LUMINARIAS DE EXTERIOR

Estimados clientes, socios comerciales y amigos de Eglo.

Sin duda, 2020 será recordado como el año más extraño en décadas. Nadie podría haber predicho que una pandemia mundial tendría un impacto económico tan amplio en un período de tiempo tan corto. La crisis de COVID nos ha dejado muy claro a todos cuán estrechamente conectados estamos en este planeta, tanto económica como socialmente.

Sin embargo, en cada crisis también hay oportunidades. Debido al bloqueo y las restricciones a nuestra capacidad para movernos y viajar, la digitalización se ha convertido en un factor decisivo para llegar a los clientes. Así que este año, por primera vez, el catálogo de lámparas de salón que tienes delante también estará disponible como catálogo online, con información y características adicionales. Nuestras innovaciones de productos también incorporan tendencias para garantizar que sean aptas para el futuro. Debido a un creciente sentido de conciencia sobre la salud, los consumidores optan cada vez más por productos naturales y sostenibles. Para satisfacer esta creciente demanda, hemos puesto especial énfasis en luces atemporales que se integran perfectamente en casi cualquier hogar, disponibles en colores neutros y fabricadas con materiales naturales como madera, vidrio y cuero.

Con esto en mente, espero que disfrutes hojeando nuestro nuevo catálogo principal y, sobre todo: mantente sano y salvo!

Dear customers, business partners and trusted EGLO friends,

2020 will certainly be remembered as the strangest year in decades. Nobody could have predicted that a global pandemic would have such a wideranging economic impact in such a short period of time. The COVID crisis has made it abundantly clear to us all just how closely connected we are on this planet, both economically and socially.

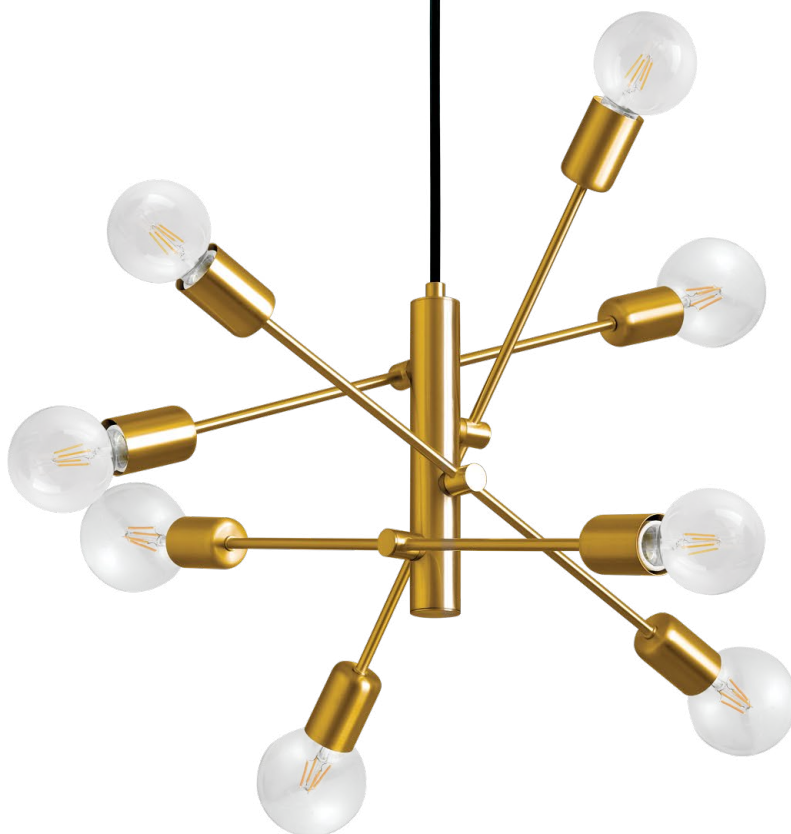

However, in every crisis there is also opportunity. Due to the lockdown and restrictions on our ability to move around and travel, digitalisation has become a decisive factor in reaching customers. So this year, for the first time, the living room lights catalogue in front of you will also be available as an online catalogue, including additional information and features. Our product innovations also incorporate trends to ensure they are fit for the future. Due to a growing sense of health consciousness, consumers are increasingly opting for natural and sustainable products. To meet this rising demand, we have placed particular emphasis on timeless lights that blend in perfectly in almost any home, available in neutral colours and made from natural materials such as wood, glass and leather.

With this in mind, I hope you enjoy flicking through our new main catalogue and above all: stay safe and well!

ÍNDICE DE REPRODUCCIÓN CROMÁTICA

QUALITY CRITERION / COLOUR RENDERING

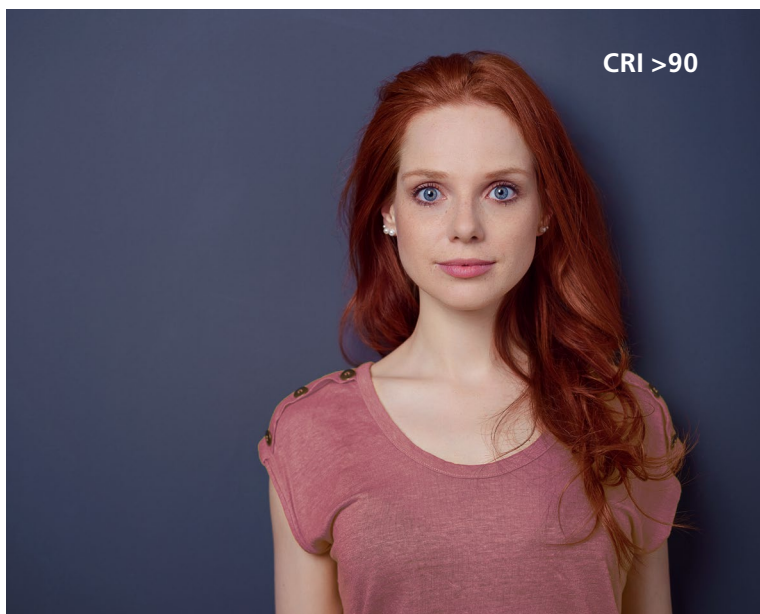

ÍNDICE DE REPRODUCCIÓN CROMÁTICA

El índice de reproducción cromática Ra describe la calidad de reproducción cromática de las lámparas. Cuanto mayor sea el valor de Ra, menos cambiará la luz artificial el color de un objeto. El valor máximo de Ra (por ejemplo, el Ra valor del sol) es 100.

Por tanto, las lámparas con un Ra superior a 90 te harán lucir mejor.

Las lámparas con un valor Ra superior a 90 se marcan con este botón:

CRI
>90

QUALITY CRITERION COLOUR RENDERING

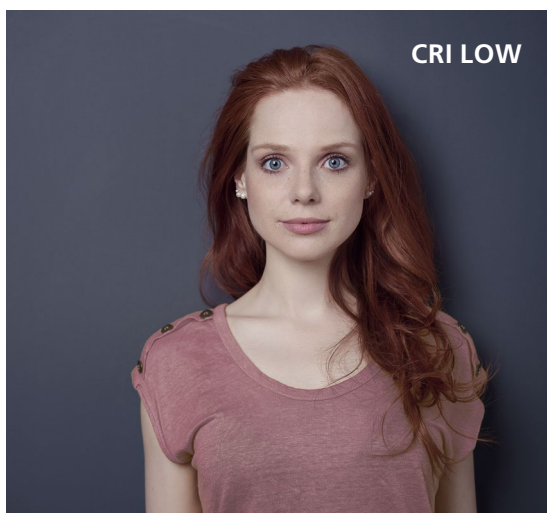

The colour rendering index Ra describes the colour rendering quality of lamps. The higher the Ra value, the less will the artificial light change the colour of an object.

The maximum Ra value (e.g. the Ra value of the sun) is 100.

Therefore, lamps with an Ra above 90 will make you look better.

Lamps with an Ra value above 90 are marked with this button:

CRI
>90
